ABOUT NORMANDEAU

Normandeau Associates, Inc. has earned a reputation for excellence in understanding and solving complex natural resource issues using sound science and innovative technology. As a science-based environmental consulting firm with over 50 years of experience providing federal, state, and local government related services, Normandeau stands out for its ability to guide clients to sound, defensible and reasonable science-based decisions for project and regulatory compliance.

Normandeau staff from nationwide offices provide a depth of knowledge and experience in disciplines ranging from ecological assessments and permitting to stakeholder interviews and facilitation, and conduct a wide range of environmental services for our clients from baseline studies to complex NEPA assessments.

CURRENT and RECENT FEDERAL CONTRACTS

Department of Defense (DoD)

US Army Corps of Engineers
New England District

Environmental Monitoring and Sampling Services to be Provided for Various Projects Located Throughout the Northeastern United States and Adjacent Waters
Contract # W912WJ-24-D-0015

Portsmouth Naval Shipyard

N4008521D0005 Task Order PNSY P1080
Electrical Reliability & Water Resiliency Upgrades: Environmental Permitting Support
Team Subcontractor to Weston & Sampson

Engineer Research and Development Center (ERDC)

Blanket Purchase Agreement (BPA)
Master for Biological Services
Vicksburg, MS
Contract # W912HZ25AA012

US Department of Agriculture (USDA)

US Forest Service, Region 8

R8 National Environmental Policy Act (NEPA) Support Services, No. 1243ZP18R0010, Team Subcontractor to BMT Designers & Planners

General Services Administration (GSA)

United States Fish & Wildlife Service

Acoustic Surveys for bats in Appalachia
Contract D01 140FS324F0166

Analytical Support for Northeastern Bat Data and NABat Services
Contract D01 140FS324F0165

MAS-FSC Group: Professional Services

Contract # GS-10F-0319M

Naval Facilities Engineering Command

Aerial Survey of Seabirds,
No. N6274218F9953 under GSA

SMALL BUSINESS SET-ASIDE NAICS CODES

541715	Research and Development in the Physical, Engineering, and Life Sciences (except Nanotechnology & Biotechnology)
541370	Surveying and Mapping (except Geophysical) Services
541380	Testing Laboratories and Services
541620	Environmental Consulting Services
541690	Other Scientific and Technical Consulting Services
541990	All Other Professional, Scientific, and Technical Services

100% Employee-Owned Company

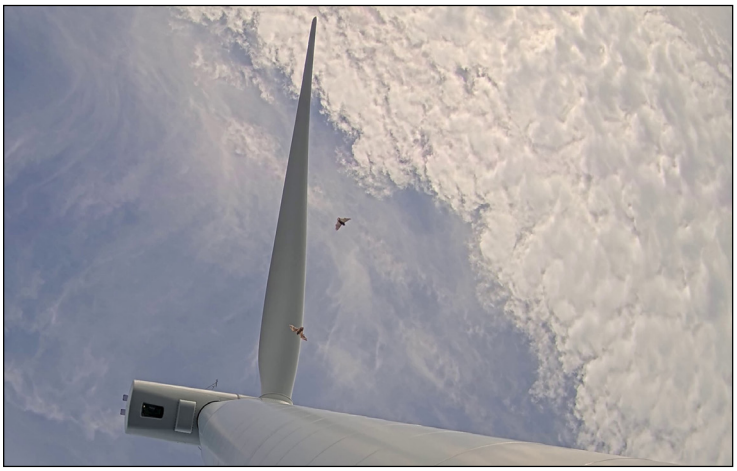
REPRESENTATIVE SERVICES PERFORMED NATIONWIDE

NEPA Documentation, Permitting, & Studies

- Agency scoping, consultation, and coordination
- Environmental assessments
- Environmental impact statements
- Endangered species habitat evaluation
- Geological/hydrogeological and sediment investigations
- Aquatic and terrestrial ecological assessment
- Wetland delineation and functional analysis
- Impact assessments, mitigation planning, and design
- Alternatives evaluation
- Expert testimony
- Public involvement, communication, and facilitation

Marine & Coastal

- Inwater Construction Monitoring
- Ecological management and habitat restoration planning and design
- Wetland and watershed studies
- Port planning, dredging, disposal analysis, and permitting
- Habitat assessments, surveys, and analysis for fisheries and marine mammals
- Bird and bat detection and monitoring
- High resolution aerial imaging, analysis, and interpretation
- Sediment sampling and vibracoring
- Hydroacoustics and scientific diving
- Biological laboratory fish analysis and identification of benthic and planktonic organisms



Energy Generation & Transmission

- Hydropower fish passage survivability
- Instream flow analysis
- Entrainment and impingement of fish & larvae at intake structures
- Water quality and thermal monitoring at power plant outfalls
- Nuclear Radiological Environmental Monitoring Program support (USNRC compliant)
- Wind-wildlife interactions, bat, and bird mortality reduction
- Power line and gas pipeline planning and routing
- Avian/power line interactions
- Aerial high resolution imaging, analysis, and interpretation
- Biological laboratory identification of benthic and planktonic organisms

Protected Species & Environmental Restoration

- Terrestrial wildlife ecology
- Wildlife management and protection
- Human-wildlife issues (coexisting with wildlife)
- Clean Water Act 316(a) and 316(b)
- Hydroacoustic remote sensing
- Instream flow analysis
- Sustainable practices
- Certified dive masters and USCG licensed boat captains
- Habitat restoration

INNOVATIVE TECHNOLOGY

Normandeau's innovative technology systems and services include:

- Remote Bat Acoustic Technology (ReBAT®) system for data collection and monitoring
- Turbine Integrated Mortality Reduction (TIMR®) smart curtailment system
- Remote Condor Observation Network (ReCON™) early detection system
- Acoustic Thermographic Offshore Monitoring (ATOM) system for wildlife surveys
- Remote Marine and Onshore Technology (ReMOTe) secure, real-time data portal
- High resolution aerial imaging for wildlife, habitat, and infrastructure surveys (2D, 3D, RGB, near infrared, thermal)
- Hi-Z Turb'N Tag™ and Sensor Fish technology for fish survival studies
- System for Environmental Flow Analysis (SEFA) for instream flow modeling
- Active hydroacoustics for underwater remote sensing of aquatic resources (sonar, ADCP, ARIS)
- Submarine remote video
